Lutheran Church Notes

By Rev. C. R. Lowe.

There will be no practice for the young people this week because of the general attendance at the fair. Miss Margaret Hacker, the high school teacher at Brushy Bend, presided at the piano last Sunday, and is ready to be there all the time. The annual congregational meeting will be held at the Salem church next Sunday morning. Election of officers and the receiving of reports for the year will be the principle things to be done. Also anything that is for the interest of the congregation may be brought before the session. This is your meeting, you will be given a privilege to have your say. Come and take part. It would be a fine thing if a lot of us from Salem would be present at the organization of the Calvary church at South Sioux City next Sunday night. It is located in one of the store rooms just south of the one where the Mail is published, across the street from the drug store. You will hear a good sermon, and will be able to get acquainted with some of the men in the synod. You will enjoy it, and will be encouraging the people of the Calvary church. If you want to enjoy your religion, all you have to do is to exercise it. That is all you have to do to enjoy your health. We once knew a woman who seemed to be well, she ate heartily, but she did not exercise a bit. She thought she could not so much as sit up, and she didn't. All the neighbors thought there was nothing the matter with her. She did not exercise a bit, and she did not enjoy her life, and did not let her people enjoy theirs. Now, if she had just done something through those years she lay on her bed, she would have had some good time. When she got to trying, she got up directly, and today she is all right. Now if we would but know that religion is to be exercised. A baby kicks and stretches because it feels good. A man who has been away from home for a time comes back and likes to get to work, because he feels good, the exercise feels good. The same is to be said of your religion. Begin easily if you will, but begin. Start out by going to the house of God and see if you do not gain some strength, and then go on to other things. Do not be afraid of doing something, for your joy will be in the doing. And what we like to do we will not think is hard. And that is what will make the church go. Remember if we want the church to go, we are the church and must do the going. Is the next generation in the Salem community going to be like the present generation? That is a thing for you all to think about. If they are it is because you have done for them as your fathers did for you in the way of the church, which is the power for good influences in the community, and if they are not, it will be because they did not come under that influence as the older ones did. Sometimes we are inclined to think there are more drawbacks and pitfalls now than there were then, but when we come to points, there was probably as many difficulties in the days of our fathers as there are today, though, of course, they may have been different ones. All those who are at the work, will be glad to see any who will help.
